

Meet Our Maintenance Team

We'd like to introduce our wonderful maintenance team & recognize them all for their hard work. Thank you for all that you do to ensure the safety of our planes and students at Fly Legacy Aviation. We wouldn't be able to operate without you.

Runway 6-24 Grand Reopening

On October 28, Northeast Philadelphia Airport reopened runway 6-24. The 7,000 foot, newly paved runway had been closed since March. There is now a displaced threshold at the start of runway 6. According to the FAA, a displaced threshold is a threshold located at a point on the runway other than the designated beginning of the runway. Displacement of a threshold reduces the length of runway available for landings. The portion of runway behind a displaced threshold is available for takeoffs in either direction and landings from the opposite direction.

Dahshaun

Dahshaun was born and raised in South Philly. He went to Preparatory High School and Southern, then obtained his degree in Business Administration from Delaware County Community College. He is a master mechanic who can fix anything from planes, to cars, to houses. He's a man with many hats and graduated with his A&P license in January of 2021. A&P stands for airframe and PowerPlant, meaning that A&P mechanics are licensed to work on and maintain the external (airframe) and engine (Power Plant) parts of an aircraft. Dashaun has a passion for cars, sports and is always willing to learn new things.

Dantezs

Dantezs Morgan was born and raised in Philadelphia. He graduated from Olney West High School in 2009. Dantezs was taught carpentry work by his dad right out of high school and has been working on houses ever since. From November of 2015 to when he graduated in 2017, Dantezs attended the Aviation Institute of Maintenance (AIM). He worked at Brenner Aerostructures where he built small aircraft parts and trunnion doors. "I like doing anything involving hand and brain work. I love to draw, drum, build, and repair. I'm always willing to expand my mind, will new horizons and knowledge and apply them to my everyday life"

Marie

Marie grew up between Philadelphia and the islands of Bermuda and the Bahamas. She graduated from aviation school in 2019, has her airframe license and is currently working on obtaining her power plant license. Marie likes to cook platters and cater small events, enjoys traveling and has a love for animals. Her goal for the future is to get her pilot's license.

FLIGHT SCHOOL

October Graduates

Wael Abdo

Instrument Rating
October 6, 2021
Instructor: Diego Arrieta

Kornel Pesti

Instrument Rating
October 14, 2021
Instructor: Alex Collicott

Julian Drawdy

CFII
October 20, 2021
Instructor: Alex Collicott

Claudia Lezcana

Private Pilot License
October 21, 2021
Instructor: Diego Arrieta

Terrence Malloy

Instrument Rating
October 21, 2021
Instructor: Alex Collicott

Hamed Alahmadi

Private Pilot License
October 22, 2022
Instructor: Declan Ferguson

October Solos

Darsh Gandhi

Private Pilot License
October 24, 2021
Instructor: Alex Collicott

Congrats, Julian Drawdy CFII

Fly Legacy would like to congratulate Julian Drawdy on passing his Certified Flight Instructor Instrument (CFII) check ride.

"When I first got my instrument rating, it improved my skills dramatically. It was challenging yet rewarding and made me a better pilot. I'm excited to be able to pass on my knowledge and experiences of instrument flight to my students. I'd like to thank Alex Collicott for his support and mentorship through this process."

CFIIs are responsible for teaching pilots how to fly in instrument conditions as well as ensuring instrument rated pilots maintain their proficiency. Julian can now teach others the skill of flight in the clouds with reference to only instruments instead of visual flight.

Call 215-969-0311 today to get started on your instrument training with Julian.

Thank You, Wharton Students

During the weekend of October 23rd, we had the privilege to host an event for the Wharton School of University of Pennsylvania! 6 Airplanes, 6 Instructors, and 20 students got to experience the joy of flight for the first time!

Hisham, one of our amazing students and attendees says, "Can't speak more highly about this flight school. Very professional, thoughtful and caring. Experts in the aviation space with a full range of services. We did a group event here which couldn't have gone any better. All staff was incredible, especially Alex, from coordination to execution!"
