

# Buying an Aircraft with James Cherry

## EXCLUSIVE MASTER CLASS

All you need to know —  
from the pre-purchase  
inspection to closing  
the deal.

### CLASS ITINERARY

- 1 Buying or renting.**  
Why buy the cow if I can get the milk for less?
- 2 Why do I need it?**  
Business or family use? Am I ready? Need versus want.
- 3 What type should I actually buy?**  
Utility versus speed.
- 4 Break**
- 5 Finding the aircraft**  
Where do I look?
- 6 Who knows how to take care of this thing?**
- 7 Purchase process**  
My bank never even heard of these things!
- 8 Signing the bottom line**

### WHEN

9am on Saturday  
July 30th, 2022

### WHERE

Fly Legacy Aviation  
9800 Ashton Road  
Philadelphia, PA 19114

# \$145

For those of you who don't know James Cherry, an industry veteran, who, besides being an FAA certified airframe and powerplant mechanic and inspector, is also a licensed commercial charter pilot and certified flight instructor. For this one time only, James Cherry is sharing his wealth of experience and knowledge of aircraft purchasing with you, which will save you thousands of dollars. Don't miss this chance to learn from the best.

# Piedmont Airlines Seminar

We had a wonderful time welcoming Piedmont Airlines to Fly Legacy Aviation last month. Thank you to all of those who joined us and for all your insightful questions.

## Recap

- Piedmont's pilots are the highest paid pilots in the regional aviation industry
- First officers are receiving \$90 per hour and Captains are receiving \$146 per hour during the first year.
- Up to \$180,000 in bonuses.

## Cadet Program

Receive up to \$30,000 in bonus and board the fastest path to American Airlines.

## Qualifications

- Commercial multi-engine with instrument rating
- 500 hours total time
- No closer than 200 hours away from reaching ATP/Restricted ATP minimums
- Valid first class medical
- No criminal record
- No FAA violations

## GENE'S AVIATION QUIZ

- 1 What are "strakes"?
- 2 What does it mean when a magneto shows no rpm drop during the run-up?
- 3 Why are you supposed to start 456Y only on the left mag?
- 4 Why do we not start the 100i aircraft or aircraft with key start on the left mag?
- 5 What does a "K" mean in front of an airport name?

# Flight School Graduates

June was a very busy month for Fly Legacy Aviation. We'd like to congratulate all of our students who graduated this month! We are so proud of all of your accomplishments and can't wait to see what the future holds in your aviation journeys.

# Attend Camp Where Pilots Train!

There's still time to sign up for this summer's kids day camp programs. During this exciting hands-on aerospace STEM camp, students learn about the fascinating world of aviation and even get to fly in an aircraft with one of our very own Flight Instructors.

- **July 25-29, 2022**
- **August 1-5, 2022**
- **August 8-12, 2022**
- **August 15-19, 2022**
- **August 22-26, 2022**

Visit [flylegacyaviation.com/camp](https://flylegacyaviation.com/camp) or call **215-969-0311** for more info!

Last month, Greg Kennedy and campers were invited down to explore the Police Department hangar and helicopters.

## GENE'S AVIATION QUIZ ANSWERS

- 1 They are fins mounted on the fuselage of an aircraft to improve air flow. They act like vortex generators. Lear Jets have them mounted under the tail.
- 2 The magneto is not shutting down. Perhaps there is a broken P lead or a significant difference in the mags' timing.
- 3 That mag contains the impulse coupling which retards the spark to assist in starting.
- 4 In either case when you engage the engine starter the right mag is automatically grounded out, so you are actually starting on the left mag. When the key is turned to both, the right mag is now energized.
- 5 The airport is in the contiguous United States. A "P" is used for airports in Alaska and Hawaii.
